Free samples and an informative leaflet to send your customers are now available from all Bainbridge International offices. You can also point your customers to our boat owner website, www.sailcloth.com

MP-70 is a multi-purpose 48gsm (0.75oz) nylon spinnaker fabric designed specifically for cruise and club race applications.

It is manufactured using the same technology as AIRX but with greater emphasis on durability and value over ultimate performance.

MP-70 Spinnaker Fabrics

MP-70

MP-70 is based on a 40 x 40 balanced construction stabilised using a unique impregnation process. Unlike a coating that sits on top of the weave, the impregnation surrounds the fibre making for a more durable finish. An additional light coating is then applied that further stabilises the cloth and provides zero porosity.

- ▲ New durable impregnated finish.
- ▲ Additional zero porosity coating.
- ▲ Excellent performance.
- ▲ 40 x 40 balanced ripstop construction.
- ▲ Suitable for radial and crosscut applications.
- ▲ 48gsm (generic 0.75oz) average weight.
- ▲ Designed for the ideal balance of durability, performance and economy.
- ▲ Wide width (152cm) for maximum production efficiency.
- ▲ Full colour range available.

Specifications - MP-70 Multi Purpose Spinnaker Fabric

Style	Width: mm/in		Direction	Warp x Fill: Denier	Weight: gsm/smoz		Lab 20lb	Tear Strength: lb
MP-70	1520	60	Warp	40	48	1.12	10	3.1
